

Animal Shelter Building Campaign

The Northeast Nebraska Humane Society (NENEHS) was founded in 1995. In northeast Nebraska, more than 5,000 stray animals are picked up in one year, and many are unfortunately euthanized due to lack of space. Many have been turned away. The animals need space, medical attention and compassionate caregivers to begin life anew.

Future plans include a new shelter to be built just north of Norfolk on four acres of land donated as a gift to our organization. We invite you to be a part of our future and consider a contribution to the NENEHS. Funds are needed to build and maintain this shelter.

The NENEHS accepts donations in any amount. Please consider a gift to the NENEHS in memory of a loved one, including pets. The Legacy Fund is a good way to remember the Humane Society in your will.

All Donations Are Tax Deductible

The NENEHS, a 501(c)(3), is your local Humane Society. We receive no tax dollars, and are supported entirely by donations.

Don't leave the animals in the cold for another night. They need you now more than ever. Hope is coming for them, but financial support is needed. Your generous donation will enable us to build a shelter, and fulfill our mission to aid animals in need.

Volunteer assistance is always welcomed. Since the NENEHS depends on the good efforts of friends of animals, we appreciate the help from local people who are able to serve on established committees, such as humane education, publicity, fundraising, event staffing and support and animal care.

Our Number One Goal

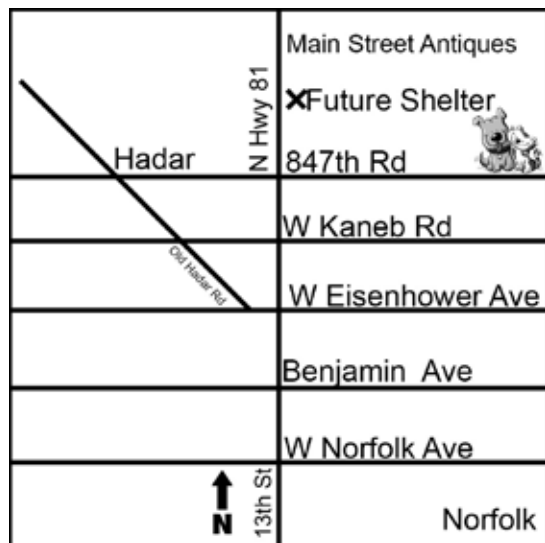

Our vision includes providing comfortable and clean housing for dogs and cats in need of homes. The shelter will have temperature controlled kennels for dogs, plus outside runs and trails for exercise. Cats and kittens will enjoy comfortable rooms and a playful environment.

Space for training, adoption services, an adoption show room, a medical room, and an office for our shelter manager will provide appropriate room to assist animals in need of homes. Our aim is to provide services to homeless animals in the Northeast Nebraska area, and serve as an adoption venue and an educational resource to surrounding communities.

Some of our friends and supporters provide foster care for dogs and cats. The need for kennel space and enclosed facilities are the most pressing issues facing our Society. We are all committed to our goal of building this much needed and long over due facility.

Questions To Ask Yourself Before Adopting

Congratulations! By reading this brochure, you've taken your first step toward responsible pet ownership.

Caring for a companion animal goes far beyond providing food, water and shelter. It takes research and careful planning to bring the right pet into your home, and to make sure your lifestyle is the right one for your pet.

Answering the following questions will get you started.

1. Why do you want to adopt a pet & are you ready to make a long-term commitment? Are you looking for the loyal and steady companionship that an animal can offer? Are you hoping to fill the empty space after losing a pet? Knowing why you're preparing to bring a pet home will help you to determine the breed that will fit your lifestyle. Remember, when you adopt a pet, you make a commitment to care for the animal for the rest of its life - that could mean 10-15 years for dogs and up to 20 years for cats.

2. Do you know what kind of pet is right for you?

Your personality and lifestyle, adequate living space and time spent at home, should be addressed to determine what pet is right for your household. Dogs thrive on several

hours of exercise and companionship every day. Cats are healthiest and happiest indoors and love to be treated to play sessions. Research different breeds and ask shelter staffers what animals they recommend. They're experts at making good matches. And, if you rent, do check with your landlord to see if pets are permitted.

3. Can you afford to care for your pet's health and safety? Owning a dog or cat costs more than the initial adoption fee. Food, veterinary care, spaying or neutering and proper identification are necessary. Fleas, allergies and sudden medical issues are just a few of health-related problems potential pet owners may face. If your living circumstances change, will you still be able to care for your pet?

4. Are you willing to train your animal companion and pet proof your home? Lack of training is one of the most common reasons that adopters return pets to shelters. Basic training helps dogs and their owners communicate better, strengthening the relationship overall. Also you will need to make your home safe, from sealing your garbage cans, paying attention to dangerous decorations during the holidays, plus keep toxic foods, pet-unfriendly plants and dangerous household items out of your pet's reach.

5. Is your family ready for a pet? Make sure your children are old enough to be around a pet. Children who are mature enough can happily share pet-care duties. And, remember, if you already have a pet at home, make sure this pet will accept a new member into their world.

**Save a life.
Adopt a pet from a shelter.**

Yes! I want to help save the lives of animals in need with a gift of:

\$ _____

The NENEHS is a 501(c)(3) organization

Donate with your Debit or Credit Card with a one-time payment, or monthly, quarterly, or annual withdrawals.

Adoptable pets in the area can be viewed at:

Petfinder.com

Please Spay & Neuter

More than 4 million pets are euthanized in U.S. shelters each year. Often these animals are the offspring of cherished family pets, even purebreds. An unspayed cat can give birth to 18 kittens each year, and an unspayed dog can give birth to 20 puppies each year. Don't let your pet contribute to these statistics.

Please Contact A Vet In Your Area About Spaying & Neutering Your Pet.
